# What is the Difference Between Vegetarian & Vegan Food ?

Swipe >>>

📍 100 ft Road, Near Subway, Shobhagpura

☎ 95492 63999

## Veganism Vs Vegetarianism

When it comes to dietary choices, many people often get confused etween vegan and vegetarian diets. While both are plant-based diets, there are some significant differences between the two.

### VEGETARIANISM

is a dietary lifestyle that eliminates meat, poultry, fish, and seafood from the diet. However, vegetarians still consume animal products such as dairy, eggs, and honey.

### VEGANISM

is a lifestyle that eliminates all animal products from the diet, including meat, poultry, fish, seafood, dairy, eggs, honey, and any other animal-derived ingredients.

## What is Lean Manufacturing ?

Lean Manufacturing or call it Toyota Production System, can deliver astonishing results, only on the hands of masters.  
Growing an expert is demands many years of living between machines and workers learning while improving production.

This is why masters are scarce all over the world, and explains why 60% of American factories want to turn Lean, only 2% succeed.

Masters are even extremely rare when it comes to combined Lean and Woodworking expertise with its peculiarities and complications.

### 8 Wastes of Lean Manufacturing

## How Soon ?

Lean expertise is proportional to the number of years one lives on the production floor. Washing ones hands "3 times per day" is a must. Reading books about swimming won't make a champion swimmer.

After residing 12+ years on the production floor, out of a total of 22 years in practicing lean practitioner, I'm back on the production floor in India.

This is part of the 30 years of hands-on experience in furniture and joinery manufacturing. Passion for woodworking and production management is the motivation. With this vast experience, results start surfacing in just days not months or even weeks.

## What do We Deliver ?

### 1

#### Productivity

A Lean master can improve productivity by 100%, and up to even 300% of the customary. This lowers cost per unit dramatically, with optimum quality, delivered on time.

### 2

#### Low Running Cost

Less automated machines lower the running costs. Also, higher productivity calls for less workers, less space, yet delivering just in time. Hence, higher profits, even when selling for lower prices. This is how you can choose your customers.

### 3

#### Less Investment

Management makes the difference, not automated machines, as many think. Factories close down while others flourish while machines are for all.

## How Can We Cooperate ?

We accept the minor percentage from the money we rescue from fire of waste.  
**You retain the majority.**

If you are starting a new factory, we layout the machines, showing the work force. We also can train and run the "value stream" to deliver the targeted production. Supervision is eliminated, with no quality control!  
**WHAT WILL YOU BE RISKING ?!**

The Practice of continuous improvement

## TORKI ALAREED

Lean Manufacturing Master

# Want to Lose Money ?

If not

## Risk Free Lean Manufacturing

is the best way !

The Practice of continuous improvement

Lean Manufacturing or call it Toyota Production System can deliver astonishing results, only on the hands of masters. Growing a Lean expert demands many years of living between machines and workers, learning while improving productivity.

This is why masters are scarce all over the world, and explains why 60% of American factories want to turn Lean, only 2% succeed.

Masters are even extremely rare when it comes to combined Lean and Woodworking expertise with its peculiarities and complications.

## What do We Deliver ?

### 01 Higher Productivity

A Lean master can improve productivity by 100%, and up to even 300% of the customary. This lowers cost per unit dramatically, with optimum quality, delivered on time.

### 02 Low Running Cost

Less automated machines lower the running costs. Also, higher productivity calls for less workers, less space, yet delivering just in time. Hence, higher profits, even when selling for lower prices. This how you can choose your customers.

### 03 Less Investment

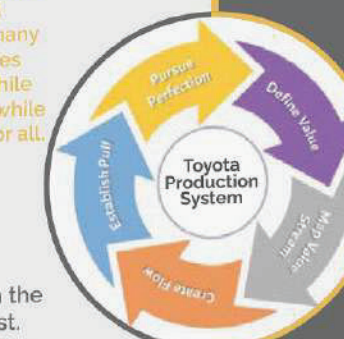

Management makes the difference, not automated machines, as many think. Factories close down while others flourish while machines are for all.

## How Soon ?

Lean expertise is proportional to the number of years one lives on the production floor. Washing ones hands "3 times per day" is a must. Reading books about swimming won't make a champion swimmer.

After residing 12+ years on the production floor, out of a total of 22 years in practicing lean practitioner. I'm back on the production floor in India.

This is part of the 30 years of hands-on experience in furniture and joinery manufacturing. Passion for woodworking and production management is the motivation. With this vast experience, results start surfacing in just days not months or even weeks.

## How Can We Cooperate ?

We accept the minor percentage from the money we rescue from fire of waste.

You retain the majority. If you are starting a new factory, we save you considerably as we layout the machines, showing the work force.

We also train while running the "Value Stream(s)" to deliver the targeted production. Supervision is eliminated, with no quality control !

**ONE MORE PARADOX, YOU WILL BE HAPPIER, THE MORE MONEY WORKERS EARN!!**

what will you Be Risking !?

Some of the companies in Dubai, Saudi Arabia, Jordan, Egypt... I improved considerably. Working on the production floor of each added to my skills.

Consultant - Improved the productivity of the rebar cut, bend & fixing

Cost Saving Consultant - Overprocessing was their most urgent problem. Redesigning the operation saved so much

Consultant - A Well-equipped furniture factory suffering from Low Productivity. Repaired and fixed it.

Advisor - Eliminated the waste of waiting & Dropped the overstaffing by 20%

Consultant - Manufacturer of up to 95" smart screen and smart boards exported to many countries.

Consultant - Many Projects in including the Massive Dubai Mall, Crystal, Plaza - Sharjah

## Me in Brief

**TORKI ALAREED**  
Lean Manufacturing Master
